

# WAGGLE WHEELS Workshop

## Adventureabilities

### Be creative, learn to use hand tools and become part of a team.

Waggle Wheels is our weekly workshop where we learn new skills in a fun and engaging small team environment.

Each week we head out in the bus to source recycled materials from our local op shops, recycled centres and even pick up items that have been donated from the community. We'll then bring them back to the Adventure Shed, pull them apart, clean them up and find fun ways to put them all back together to create the perfect buggy for pets that have mobility issues.

Full details can be found on our website or just give us a call.
